

GE
Power Conversion

The power to turn on your business.

We have the motors to meet your requirements and fit in your platforms and applications. In fact, some of our motors may even be running your systems today.

GE has the **value** you know and the **reliability** you have learned to trust. Our machines fully comply to all applicable IEC and NEMA standards, are competitively priced, and are available in stock today.

For the best AC and DC motors, there really is nowhere else to turn.

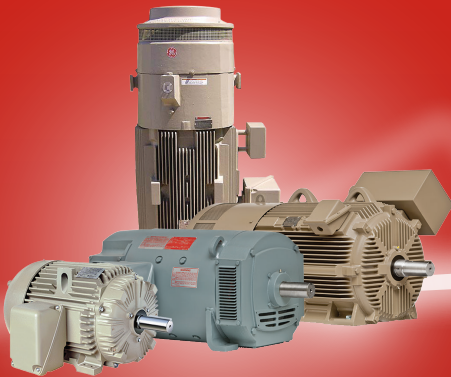

Visit us at www.gemotors.com for more information.
